

## Preliminary program

### Morning session (9.30 am – 1.00 pm): Exploring the microbial landscape of everyday life and bridging health to disease

Welcome and Opening Remarks - Members of the Scientific Steering Committee

General Population Cohorts — Exploring the Microbial Landscape of Everyday Life

- **The French Gut Cohort: Mapping Microbiome Diversity at Scale** - Patrick Veiga (INRAE)
- **Microbiome Studies in Large Population Cohorts: Lessons from the Dutch Microbiome Project and LLNEXT** - Alexandra Zhernakova (University Medical Centre Groningen)
- **Milieu Interieur - understanding causes and consequences of immune variability in healthy populations** - Darragh Duffy (Institut Pasteur)

Cross-Cutting Cohort — Bridging Health and Disease:

- **Dynamics of the Human Gut Microbiome in Health and Disease** - Jeroen Raes (KU Leuven)

### Afternoon session (2.00 – 5.00 pm): Uncovering diseases microbiome signatures for tomorrow prevention

Patient Cohorts — Uncovering Microbiome Signatures at the Heart of Clinical Challenges & Prevention

- **Autoimmunity in Pediatrics: Key Findings from the ATRACTion Cohort (RHU-4)** - Frédéric Rieux-Laucat (Institut Imagine)
- **IBD Patient Cohorts: Clinical and Microbiome Perspectives** - Harry Sokol (APHP)
- **Harnessing Immunotherapy: Clinical Evidence from Oncology Cohort** - Lisa Derosa (Gustave Roussy)
- **Decoding Obesity and Metabolic Disorders: Cohort-Based Evidence** - Karine Clément (Inserm)

Closing Remarks and Next Steps
