MICROBIOMES

Connecting Cohorts and Microbiomes

June 26th, 2026

Necker University, 160 rue de Vaugirard – Paris 15^{ème}

Program

Morning session: Exploring the microbial landscape of everyday life and bridging health to disease

| | | |
|---------------|--|--|
| 09:15 – 09:40 | Welcome and key highlights of the Cohortes-Microbiomes project | Members of the Scientific Steering Committee |
| 09:40 – 10:20 | The French Gut study: mapping microbiome diversity at scale | Patrick Veiga (INRAE) & Robert BENAMOUZIG (AP-HP) |
| 10:20 – 11:00 | Microbiome studies in large population cohorts: lessons from the Dutch Microbiome Project and LLNEXT | Alexandra Zhernakova (University Medical Centre Groningen) |
| 11:00 – 11:25 | <i>Coffee break</i> | |
| 11:25 – 12:05 | Milieu Interieur - understanding causes and consequences of immune variability in healthy populations | Darragh Duffy (Institut Pasteur) |
| 12:05 – 12:45 | Dynamics of the human gut microbiome in a population-based cohort: insights from the Flemish Gut Flora Project – Longitudinal | Muriel Derrien (VIB-KU Leuven) |
| 12:45 - 13:45 | <i>Lunch time</i> | |

Afternoon session: Uncovering diseases microbiome signatures for future prevention

| | | |
|---------------|---|---|
| 13:45 – 14:25 | Autoimmunity in pediatrics: key findings from the ATRACtion Cohort (RHU-4) | Adrien Schwartz (Institut Imagine) |
| 14:25 – 15:05 | Microbiome in IBD: lessons from deeply phenotyped cohorts | Harry Sokol (Sorbonne université / AP-HP) |
| 15:05 – 15:30 | <i>Coffee break</i> | |
| 15:30 – 16:10 | Harnessing immunotherapy: clinical evidence from oncology cohort | Lisa Derosa (Gustave Roussy) |
| 16:10 – 16:50 | Decoding obesity and metabolic disorders: cohort-based evidence | Karine Clément (Inserm) |
| 16:50 – 17:00 | Closing remarks | |
